
Here's how our OctoberTour 2021 game works: Locate 28 historic sites based on the hints! Match the building with the business or businesses located there, and go in and say hello, and have your card punched for that site!

Drop off your finished card at Historic Salisbury Foundation, 214 Depot St. before Friday October 15th to be entered to win \$200 Downtown Dollars! Three winners will be drawn! (Don't worry if you can't find them all!)

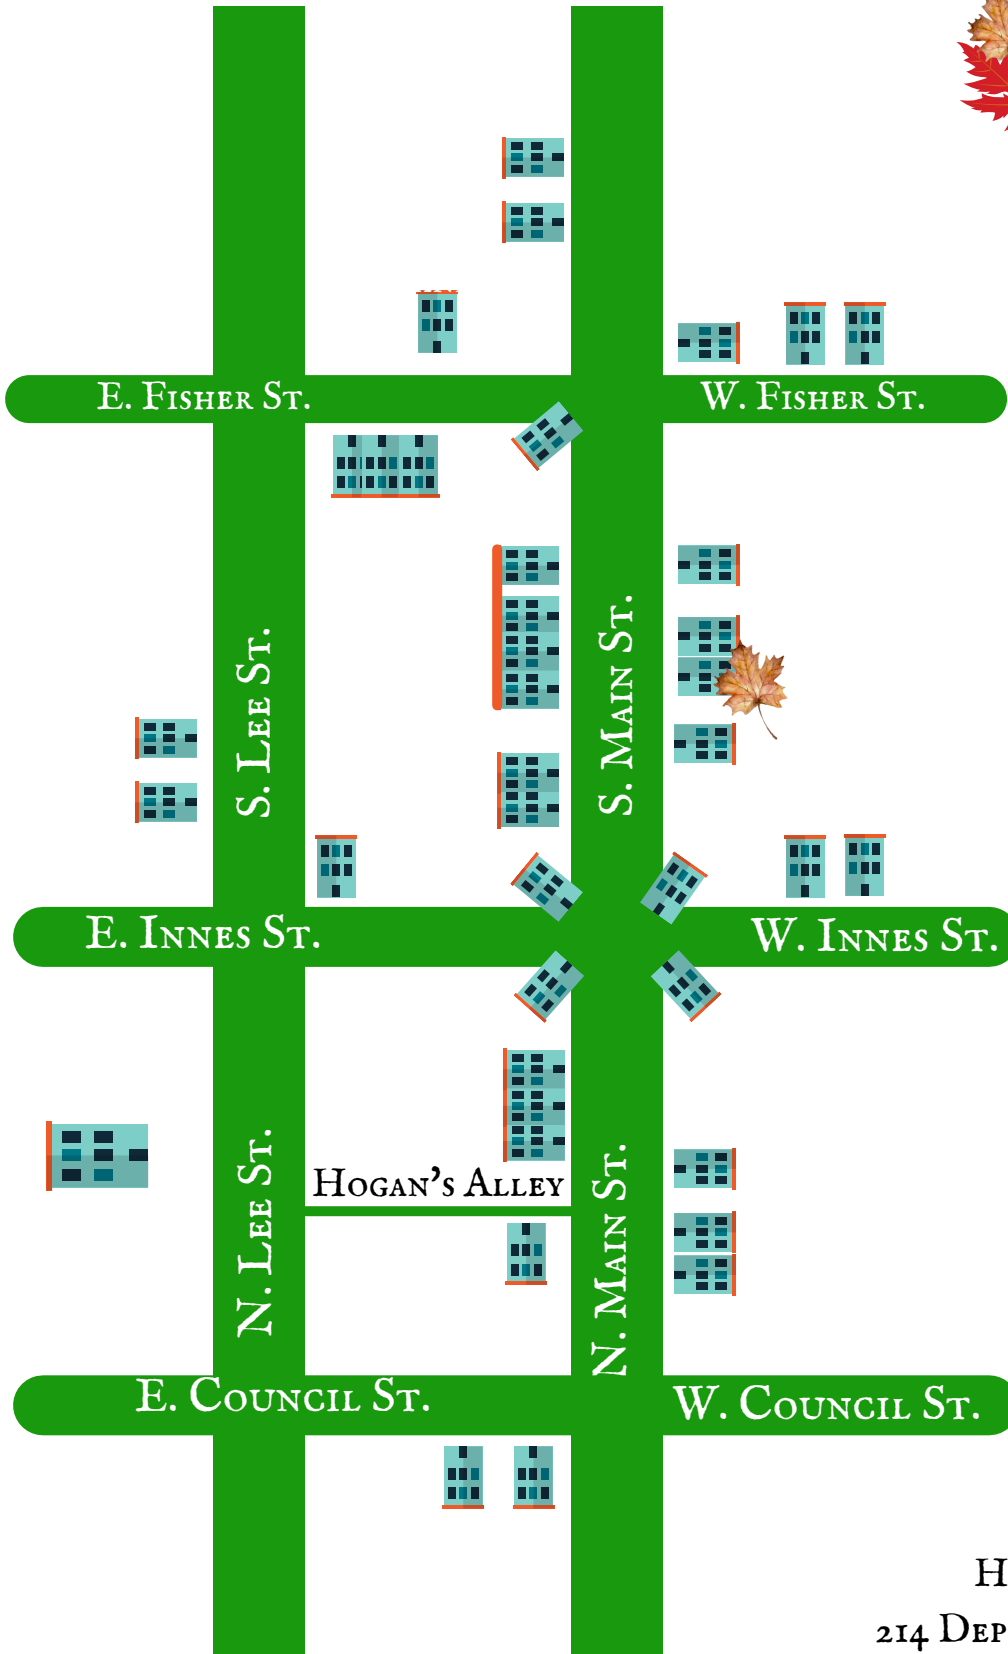

Optional: Just for fun ~ take your selfie in front of any or all of the historic buildings, post to your favorite social media, and tag #OctoberTour2021!

- Chop, chop. I am a 3-story yellow brick building built in 1923. I used to be a furniture store! Now you might feel like you are in Asia and have the option to eat with chopsticks here! There are two floors of offices above me!
- When I was built in 1859, I was Salisbury's first skyscraper! I have beautiful tin ceilings inside, and I was a famous drug store, or so my plaque on my outside walls tells us! You can get your ice cream fix here!
- You might WIG out to find me ~ I'm an 1890s 2-story timeless brick building in Downtown Salisbury! My red door and the little park beside me with little art musicians makes me a friendly place to find marvelous things!
- When I was built in the 1890s, my 'wheels' might have been the funny looking pennyfarthing! But today, 2-wheel rides look a little different ~ and my windows are full of possibilities for non-motorized transportation!
- I was build in 1860 – but my current people had stitchin beginnings in the 1970s before I became the yellow and purple building I am today. Special hint: A special kitty might live here!
- I might have an ugly mug, but I'm not mean....I'm just a vintage 1899 building. I've bean here for a few years, and an architect works on my second floor! Caffeine might be my specialty, but I make a mean sandwich too!
- Across the street might be the 1st Salisbury skyscraper, but I am the REAL skyscraper in the Downtown. I was built in 1912 and I am 7 & 1/2 stories tall! My first floor boutique is quite fashionable!
- I was a swanky Opera House built in 1907 – and I am not playing around when I say I have velvet seats where people really act up! I remember the day when Charlie Chaplin visited me!
- I am a huge 3-story brick building that was built in 1906! My three main level businesses feature Cuisine, and I'm a little salty, and because my upper stories are empty, your life won't get too high!
- I was built in the 1950s and was a big commercial bakery, and guess what – I still have a pretty great kitchen where you can not only cook - I give you options to get fit when you visit! I'm tucked away, but I know you'll find me! Namaste!
- I am a gorgeous stately stone building built in 1890. I have beautiful stone arched windows. And awww, shucks, you can get a shampoo . .shellfish. . or shrimp in my side-by-side first floor businesses! It's a beauty to sea!
- I was built in 1912 and my building was used to build homemade carriages! Maybe my carriages carried brewers, but now I carry homemade brews! We could take a short cut to Main Street up the alley across the street!

- I am a tiny building off the main drag and I was built in 1928! I am filled top to bottom with art, collectibles, and fun stuff . . . and I have online art, but it's not on the Internet!
- I was built in 1880, and now I have dragons ~ and they might be hot and sour! It would just be wong not to stop in here for lunch or dinner sometime!
- I am a 4-building block of symmetrical shops built in 1887. You might get the nesting instinct, but don't get the jitters that my shop name rhymes with litters, my puppies aren't pitters, and the restaurant (across the courtyard) might have bitters!
- My 1898 balcony overlooks the downtown – and a cool stone 'block' tells you who I am! Get your threads in my shop, but it's not a shed!
- I am a sweet 1890 Beaux Arts building, but I am on a brick street in the city and not in a meadow! I love to have company for brunch on Sundays and you can sit outside out back if you like!
- I am a cornerstone building in Downtown Salisbury built in 1873! I wasn't always so artsy - but now you can play in the clay, or just enjoy my renovated beauty! While we are firing away, my people live upstairs!
- For a very long time, I was a dearly beloved hardware store built in 1882! Now, I'm sugar and spice and everything nice ~ even pasta ~ in my three storefronts. My restoration includes beautiful apartments on my second story and they really take the cake!!
- I am a three-story corner building built in 1868. Where I am, I can see all the new changes to our downtown streetscape, and if your screen is cracked, I can help you see too! Can you hear me now?
- I was built in 1902 and two different shops fill my first floor! If you want to frame someone, I could be instrumental! Music and art fill my heart!
- I was built in 1890, and don't read me wrong, but there is a tale that says I might have a dragon peeking down at you in my children's section! Best sellers got nothin' on me ~ or maybe they have everything!
- I was built in 1890 and my claim to fame is my huge Palladian window in my 2nd story. Don't wine about technology when you're in my neighborhood!
- I was built in 1900 when folks in Salisbury were not likely to be eating out of taco shells, but my remodel gave me a rooftop to do just that, and to enjoy an adult beverage!
- I was built in 1910 in my stationary location, but now stationery writes my story! Letters are still a joy and we invite you to invitations and more fun party fare!
- I was built in 1900 too, and I am quite fashionable, inside and out. My awnings blush bright PINK when you compliment our exterior artwork wall with painted faux windows!
- Oh baby! I was built in 1950, and yes, I am one of the babies in historic Downtown Salisbury. But baby, I got you covered . . . you too mommy!
- We are a pair of neat-as-a-pin, side-by-side 1880 Victorian cottages that have been totally renovated and saved from the wrecking ball! Now, get your beard trimmed so you can eat music drink art with out making a mess!
